

SKILL DIPLOMA IN CLOUD TECHNOLOGY

Course Code : OCCTIT001

Cloud technology has been emerging since the last decade and is considered to be one of the "hot areas" of interest for organizations. A lot of research has been going on and many new applications have been designed, developed and launched at periodic intervals. The emergence of cloud technologies is disruptive across multiple sectors such as Information Technology, Manufacturing, Healthcare, Engineering, Information Architecture, Education, Data Management, Sales and Business Development. This course is designed for those learners who are interested to build their career in cloud technology, its related infrastructure design, and usage.
