

SKILL DIPLOMA IN INTERNET OF THINGS

Course Code : OCCTIT007

IoT refers to an Internet Of Things (IoT). Connecting any device (including everything from cell phones, vehicles, home appliances and other wearable embedded with sensors and actuators) with Internet so that these objects can exchange data with each other on a network. IoT devices are a part of the larger concept of home automation, which can include lighting, heating and air conditioning, media and security systems.
